DATASHEET

Control Labor Costs with Automated Time and Attendance Management

Looking to gain a competitive advantage and drive bottom-line results? iNetHR Time Keeping, a module in the integrated, cloud-based iNetHR suite, provides the complete automation and high-quality information you need — when and where you need it — to help your organization control labor costs, minimize compliance risk, and improve workforce productivity.

iNetHR Time Keeping addresses all your time and attendance requirements — from timecard management and labor cost tracking to employee scheduling and absence management. The solution simplifies routine tasks such as approving timesheets, correcting exceptions, responding to time-off requests, and managing schedules, using configurable built-in workflows. Real-time visibility makes it easy to manage exceptions, enforce work and pay rules, and update schedules for ongoing compliance and cost control. And robust reporting provides real-time insight to drive more informed decision making and help you optimize your labor spend.

Capture accurate labor data from a variety of sources

iNetHR Time Keeping automatically captures labor information from a wide variety of data collection sources, including the iNetHR InTouch® time clock, web entry, telephony, and mobile applications. iNetHR lets employees clock in and out for shifts or meals and perform labor transfers using an intuitive web-based interface. It can also track salaried employees and other workforce segments that need to assign time to projects. For organizations with a dispersed or mobile workforce, Workforce Ready offers a mobile app with geographic punch restrictions and a telephony option that captures employee time data via a landline or mobile phone.

Key Benefits

- > **CAPTURE ACCURATE TIMEKEEPING DATA** from time clocks, web, and mobile sources
- > **TRACK AND UNDERSTAND TRUE LABOR COSTS** by enforcing user-defined pay rules
- > **MAINTAIN COMPLIANCE** and payroll accuracy with simplified timecard management
- > **MANAGE EXCEPTIONS**, including missed punches and early/late arrivals, in real time
- > **IMPLEMENT SCHEDULES** that tightly align staffing with operational goals
- > **FREE IT** from maintenance and upgrade hassles with a cloud delivery model

Workforce Ready Time Keeping automatically flags exceptions that violate your organization's policies and sends them directly to the appropriate manager for immediate corrective action.

The configurable Workforce Ready employee dashboard enables employees to request time off; view their schedules, timecards, and accrued time-off balances; and more — all from a single screen. Employees can also use the dashboard to review, approve, annotate, and submit timesheets, which are automatically routed to managers, or a series of approvers, through a custom workflow.

Simplify routine time and attendance tasks to drive efficiency

The Workforce Ready Time Keeping dashboard provides one-click access to key data and frequently performed tasks — in real time — to speed and ease time and attendance management. The solution simplifies tasks such as approving timesheets, correcting exceptions, responding to time-off requests, and managing schedules, that occur daily, weekly or per pay period. In addition, the time-off calendar provides at-a-glance visibility into which employees are off and when. Alerts, notifications, and reporting keep managers up to date on PTO management so they can minimize the impact of absences.

Maintain compliance with real-time visibility into exceptions

Exceptions such as missed punches, early/late arrivals, and extended or skipped breaks can result in payroll errors and increased compliance risk. Workforce Ready Time Keeping automatically flags exceptions that violate your organization’s policies and alerts managers so they can take action. Complete automation eliminates timekeeping errors, while real-time calculations help maintain compliance and payroll accuracy. Plus, the system automatically sends the correctly calculated hours to your payroll system — no matter whether you use Workforce Ready Payroll or another solution — so that each employee check is cut right the first time.

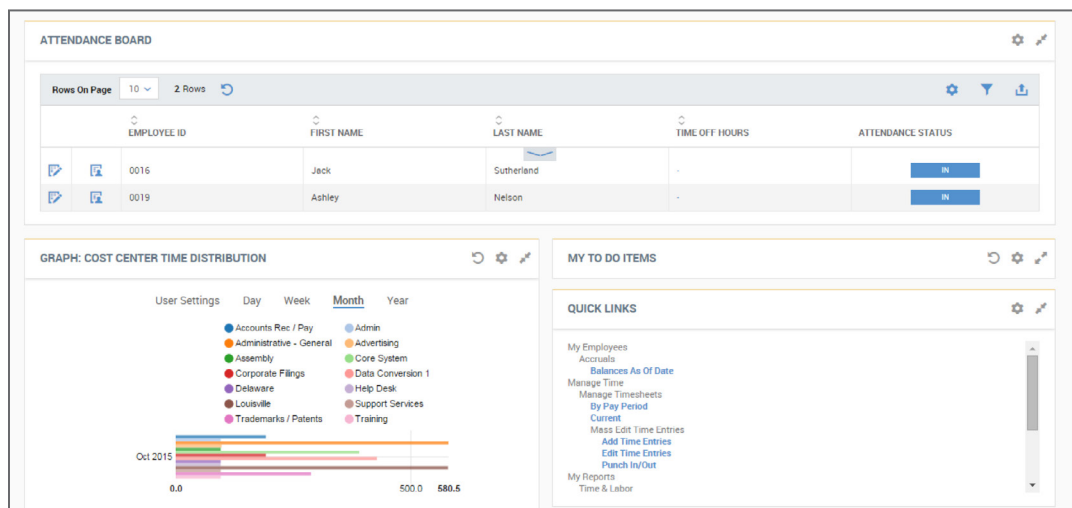

Automate attendance tracking and accruals for peace of mind

Manual attendance management processes are not only complicated and error prone, but they make it difficult to document infractions and prove compliance. Workforce Ready automates policies for attendance and accruals to drive more accurate, consistent enforcement. The system automatically updates employee attendance points/occurrences to reflect the accurate balance — with no manual intervention required — giving managers immediate visibility to current status. In addition, with the Workforce Ready Accruals module, the system calculates accrued time off based on an employee’s performance/attendance points.

Managers can easily enforce absence-related policies, including federal, state, and organization regulations. The system makes it simple to confirm each employee’s eligibility for paid and unpaid leave based on vacation, sick time, and other user-defined criteria. Workforce Ready automatically notifies managers when employees exceed established point thresholds to help ensure compliance.

Assign and track employee schedules with ease

Workforce Ready makes it simple to assign daily, weekly, or configurable patterns to schedules. For flexibility and convenience, you can assign employees to schedules or schedules to employees, view preferences, make adjustments on the fly, and give employees access from the web, a mobile app, or the time clock. You can even track scheduled hours versus worked hours, as well as projected hours, to more effectively budget labor costs, forecast overtime, and keep costs within expectations.

Information-rich dashboards provide real-time insights to drive better workforce management decisions. Format and save almost any screen as a report to meet your specific business needs. Export or deliver reports at a scheduled time to provide the right people with the right data — right when they need it.
